- 9) Suppliers spare parts material handling systems including: engine and gearbox- Roller- conveyer belts- raw rubber etc...**

Resume of EEFA SANAT International Co.

- **Activities carried out at ESCO**

- *Execute operations Warm Apparatus SP and EP belts furnace 3 at ESCO.

- **Activities carried out at Steel of Mobarake in Esfahan**

- * Execute operations Apparatus hot and cold conveyor belts steelmaking development plan.

- * Execute operations and mechanical installation and commissioning of conveyor belts of CardAmper to Area 04.

- * Execute operations warm Apparatus ST width 140cm for the first time in Steel of Mobarake.

- **Activities carried out Of mining Gol-Gohar Pelletizing plant in Sirjan**

- * Cooperation with the Gol Gohar Of mining and pelletizing plant for warm conveyor belt apparatus.

- * Belting and warm Apparatus conveyor belt type EP and ST at direct reduction unit.

- * Execute operations of warm Apparatus for ST and Side wall belt conveyer width 1400mm and length 1400mm at direct reduction furnace for the first time in Iran.

- **Activities performed at The iron ore Of mining in KHAF**

- * Cooperation with the mining which is mentioned for their hot and cold apparatus EP and ST type.

- **Activities performed at Tabriz-Khatoon Abad copper Sungun and Meiduk mining**

- * Cooperation with the mining which is mentioned for their hot and cold apparatus.

- **Activities performed at Shiraz Pasargad Steel**

- * Execute operations of warm Apparatus for Side wall and simple belt conveyer and cooperation with them for repairing.

- **Activities performed at The Tabas coal mine**

- * **Execute operations and mechanical installation and commissioning of conveyor belts at Coal mining and coal washing in Tabas.**

- **Activities performed in Kangan cement factory loading Project for conveyor lines to the ship.**

- * **Execute operations of warm Apparatus for its belt conveyer.**

- **Activities performed in Yazd alloy steels**

- * **Execute operations of Apparatus belt conveyer for factory which mentioned.**

- **Activities performed in Yazd-Ardakan Pelletizing plant**

- * **Execute operations of Apparatus belt conveyer for factory which mentioned.**

- **Activities performed in direct reduction unit at Ghadir Iranian Ardakan**

- * **Execute operations of Apparatus belt conveyer for factory which mentioned.**

- * **Execute operations Conveyor belt and its maintenance of the factory setup time so far.**

- **Activities performed in Arfa Ardakan Steel**

- * **Execute operations mechanical installation and Apparatus the conveyor belts at at direct reduction unit.**

- * **repair maintenance of belt conveyors including mechanical and beltings in Arfa Iron & Steel Company of setup time so far.**

- **Activities performed at Steel melting in Ardakan**

- * **Production and installation tanks and structures and the mechanics and Apparate hot and cold its belt conveyors and commissioning the factory which mentioned.**

- * **repair maintenance operations the conveyor belt of the factory from startup time until now.**

- **Activities performed in Zarand coal**

- * Execute operations of Apparatus belt conveyer for factory which mentioned.

- **Activities performed in Chaharmahal and Bakhtiari Steel**

- * Belting and warm Apparatus conveyor belt type EP and ST at direct reduction unit.

- **Activities performed in Saba Steel**

- * Belting and warm Apparatus conveyor belt type EP and ST at direct reduction unit

- * Execute operations and mechanical installation and commissioning of conveyor belts in Saba Steel.

- **Activities performed in Botya Steel:**

- * Execute operations of Apparatus belt conveyer EP & ST for factory which mentioned.

- **Activities performed in Chador Malou Steel:**

- * repair maintenance operations the conveyor belt of the factory from startup time until now.

Training Certificate

This Certificate is Granted to:

Mehdi Soleymani Far
From
Eefa Sanat Zarin International Co.

Has Successfully Passed Training Course:

Splice Belt Conveyors

*Successfully managed to complete, **Splice Belt Conveyors**
Course which was included:
Team works, practical, training, case studies and group discussion.*

Held @ Date:

Iran. February 2016
(60 Hours)

Registration Number:

TUV-1383-0216-1634

Signature:

Qual Assess Ltd

QAL UK LIMITED

Training Certificate

It Is Hereby Certified That:

*Mehdi Soleymani Far
From
Eefa Sanat Zarin International Co.*

Has Successfully Completed & Passed:

*Repair and Maintenance
Devices and Industrial Machinery*

The Theoretical Framework of the Course was Supported,
By Discussion, Exercises, Teamwork and Studying.

Held: Iran

Date & Time: February 2016 (60 Hours)

Registration Number:

QAL-24494-16-123559
